Enjoy!
Mr. Joseph R. Carmichael Pres.
Fame Artist Inc.

BIOGRAPHY

2010 of Joseph R. Carmichael Pres.

Fame Artist Inc.

Enjoy!

Joseph Carmichael (Born in Philadelphia December 18, 1952). Joseph began painting at the age of 7 when his mother gave him a paint by numbers oil painting kit for his birthday. To his mother's astonishment, he painted over all the numbered lines with blue paint and then created his own painting of a horse grazing in a sunny pasture. Joseph was separated from his family at the age of 9. He went from a shoe shine boy pick pocket to feed his brothers and sisters to the outstanding artist he is today. He paints and creates art to this very day.

In 2008 his sisters Michele & Jane found him in WA. His sisters Michele & Jane flew him to San Antonio TX on Valentines Day to surprise his mother. Joseph was re-united with his Mother & family 51 years later. His mother pestered his sisters to find him. His mother knew he was still alive! In 2010 he moved to Las Vegas Nevada. He spends his time running Fame Artist Inc. Buying, selling, trading fine art. And he is working on a new series of original paintings, drawings & sculptures to be released in 2012

Making art and being Joseph.

His first art teachers: Were the Christian Brothers of La Salle, St. Francis Vocational school for boys who recognized the young man's extraordinary artistic ability and instructed him in arts. He graduated from the Academy of Art in San Francisco. Over 50 years later he is still painting and sculpting and from time to time making jewelry. He deliberately worked his way from prehistoric cave paintings to contemporary modern art mastering each style and its history through the centuries.

For this reason his early paintings: Are classical & eclectic in style. All were sought after and purchased by private collectors that love his work. Today his paintings are in 46 countries through the world. Joseph has produced over 10,000 original paintings, watercolors, drawings, sculptures and custom hand-made jewelry. Instead of taking his work to the museums or galleries he created his own galleries and auction companies and took his work directly to people from all walks of life.

His private collectors: Are too numerous to mention in one list. Luminaries include. Disney On Parade, Morris Chalfin, Ted Shuffele, Van Cliburn, Cyril Magnin owner of Gucci store's in California, NY., World famous singer Johnny Ray and Agnes Moorhead. Michele Preik, Dr. Emery Lane, Robert C. Pritikin.

Joseph says: As an artist, it is a privilege to be able to live your life as an artist and create good quality art. I create because I can. I create because I don't know how not to. And I create for people from all walks of life. Nobody ever taught me how to quit! And if in some small way I can continue to make life a more enjoyable for all my clients and friends who collect my paintings, sculptures, watercolors and drawings. Then I am happy. And my happiness results in even more creativity.

While I love to create new artworks, I also love to play my saxophone, piano, and guitar, all of which assist my spirit in the creative process. Remember to keep the heart

of the child inside you alive. It is the strength of the child inside us who is the grand inquisitor. Forever look at life as if it were a brand new adventure. Let work and play become discovery. Discovery becomes invention. Invention is humanity recreating itself while moving forward in time towards new and better ideas.

Thank You!
